Web designs from scratch

We start with a documentation process: search for suitable layouts and proper color schemes. We carefully read the project's brief.

And if the client doesn't yet have a clear image of the overall layout, we build for them the information architecture of that new portal.

Then we make a digital prototype and let clients tell us what they think about it. Together we propose changes, in order to fit our solution to all client's needs.

Implementation is the hardest part, but we successfully deliver it in time and for any major modern browser.

DIGITAL AGENDA FOR EUROPE

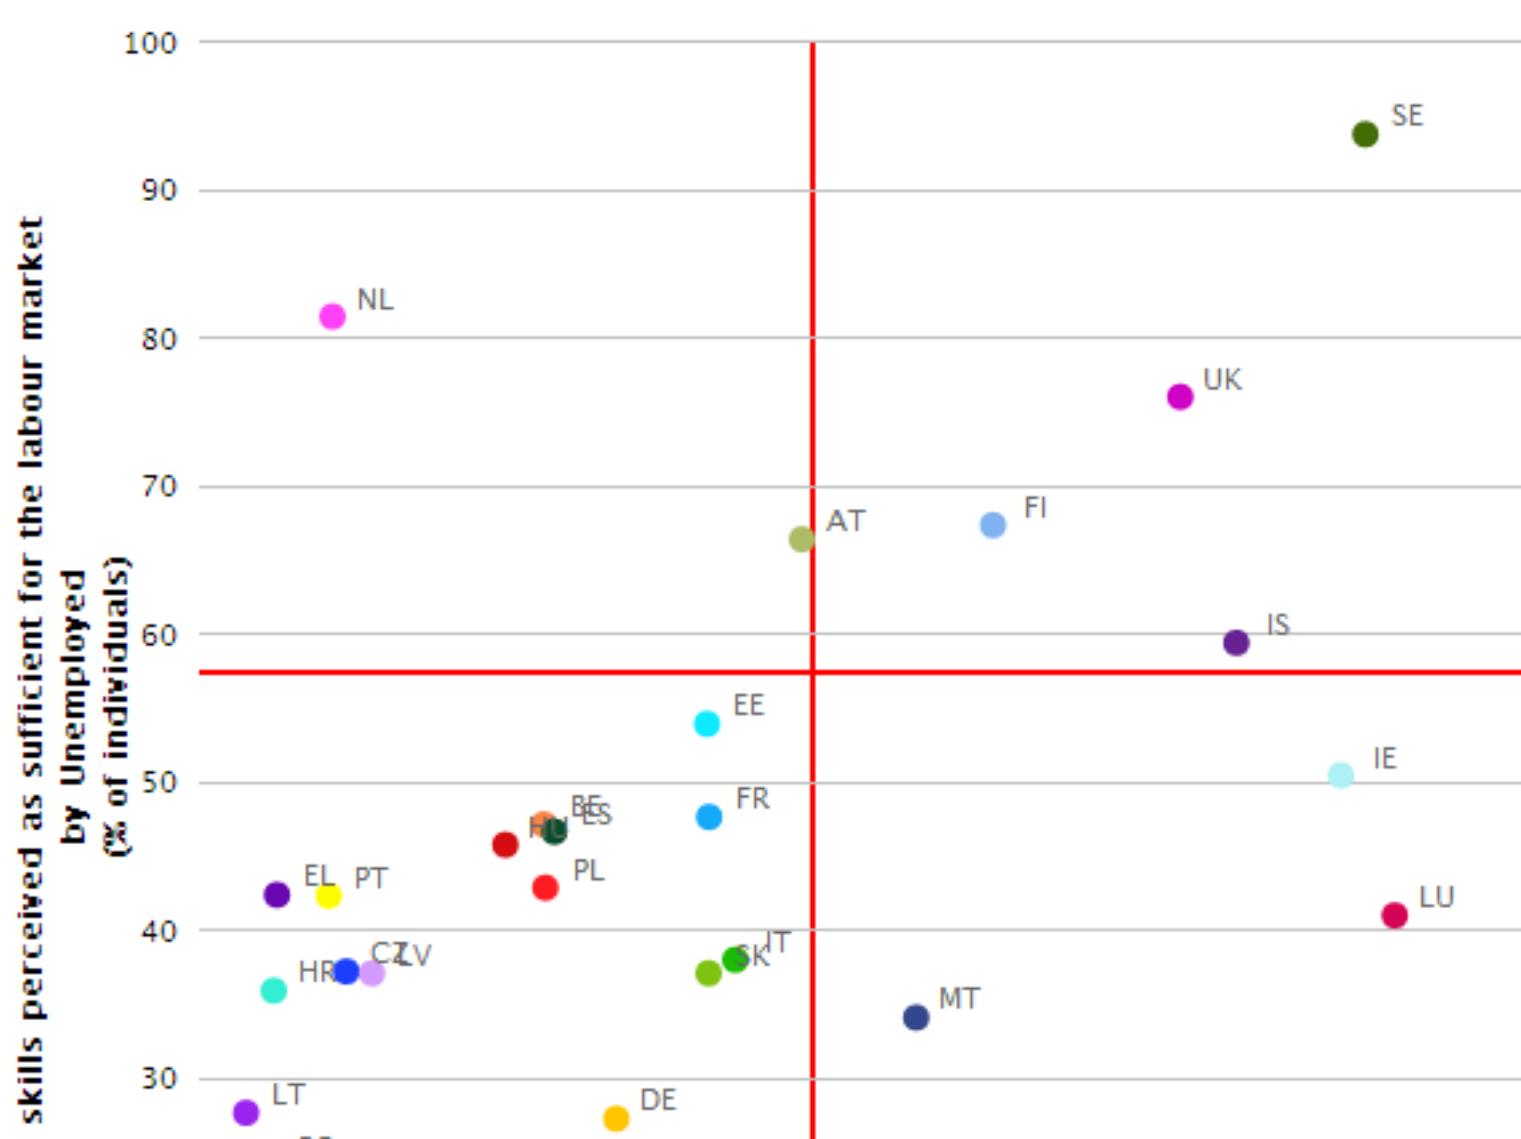

A Europe 2020 Initiative

European Commission > Digital Agenda for Europe > Scoreboard > Visualizations > Digital Agenda Scoreboard key indicators

Compare two indicators

Horizontal axis (X) indicator group: Internet usage (X) indicator: Nomadic use of laptop/tablet to access the Internet (X) breakdown: 55-74 (X) unit of measure: % of individuals Period: 2011	Vertical axis (Y) indicator group: ICT Skills (Y) indicator: ICT skills perceived as sufficient for the labour market (Y) breakdown: Unemployed (Y) unit of measure: % of individuals

The pan-European component is coordinated by the European Environment Agency and produces 5 high resolution data sets describing the main land cover characteristics: artificial surfaces (e.g. roads and paved areas), forest areas, agricultural areas (grasslands), wetlands, and small water bodies. The pan-European component is also updating the Corine Land Cover dataset to the reference year 2012.

What's new

European Cyber Security Month - building together a joint EU advocacy campaign!

The first Coordinators' Meeting for the European Cyber Security Month (ECSM) 2013 will take place on Monday 27th of May at ENISA's premises in Athens. The meeting will focus on getting to know this year's participants and sharing best practices from experience to date.

European Cyber Security Month is an EU advocacy campaign that takes place in October. ECSM aims to promote cyber security awareness among citizens. The campaign has the objective of modifying perceptions of cyber threats in everyday life - at work, or when online privately. It also aims to provide updated security information through education, good practices and competitions. ECSM'13 activities will take place throughout the month of October all over Europe, with the support of the European Commission and ENISA.

EEA Signals 2013 - Every breath we take

Apr 15, 2013

Improving air quality in Europe: Signals 2013 focuses on Europe's air. This year's edition tries to explain the current state of air quality in Europe, where they come from, how air pollutants form, and how they affect our health and the environment. It also gives an overview of the way we build our knowledge on air, and how we tackle air pollution through a wide range of policies and measures.

Goal D

Goal E

INDICATORS

1 to 20

21 to 40

41 to 60

61 to 80

81 to 97

Goal A: Address the underlying causes of biodiversity loss by mainstreaming biodiversity across government and society

- Target 1 ◦ Target 3
- Target 2 ◦ Target 4

Target 1 : By 2020, at the latest, people are aware of the values of biodiversity and the steps they can take to conserve and use it sustainably.

Mapping with National strategy:

None

Most relevant indicators:

- Indicator 66: Trends in awareness and attitudes to biodiversity
- Indicator 67: Trends in public engagement with biodiversity
- Indicator 68: Trends in communication programmes and actions promoting social corporate responsibility

Other relevant indicators:

- Indicator 73: Trends in implementation of National Biodiversity Strategies and Action Plans, including development, comprehensiveness, adoption and implementation
- Indicator 75: Trends in identification, assessment and establishment and strengthening of incentives that reward positive contribution to biodiversity and ecosystem services penalize adverse impacts
- Indicator 88: Trends in coverage of comprehensive policy-relevant sub-global assessments including related capacity building and knowledge transfer, plus trends in uptake into policy
- Indicator 96: Trends in the delivery of ecosystem services and equitable benefits from protected areas

The Water and Sanitation Platform

WatSan

[Home](#) [At a glance](#) [What can it do?](#) [Country portals](#) [Create your own](#)

The WatSan Platform enables African countries to rapidly set up a free database and website for monitoring water and sanitation services. Web portals created on the WatSan Platform are participatory tools for information dissemination in the water and sanitation sector at national and regional level. They can be used to generate maps which highlight the distribution of water and sanitation services.

[▶ Know more](#)

What can it do ?

Inform citizens on access to water and sanitation in their regions, districts and villages and gives them the opportunity to express their opinions and to update information on services

[▶ Know more](#)

Create your portal

The WatSan Platform is open to all countries who wish to develop a collaborative information system to improve governance and decision-making in the water and sanitation sector by putting databases and performance information online.

ENISA – Securing Europe's Information Society

Every day we experience the Information Society. Interconnected networks touch our everyday lives, at home and at work. It is therefore vital that computers, mobile phones, banking, and the Internet function, to support Europe's digital economy. That is why ENISA is working with Network and Information Security for the EU and the Member States.

Welcome to the Grenada Biodiversity CHM Portal

The Clearing-House Mechanism (CHM) of the Convention on Biological Diversity has been established further to Article 18.3 of the Convention

Further to decision X/15, its mission is to contribute significantly to the implementation of the Convention on Biological Diversity and its Strategic Plan for Biodiversity 2011-2020, through effective information services and other appropriate means in order to promote and facilitate scientific and technical cooperation, knowledge sharing and information exchange, and to establish a fully operational network of Parties and partners.

Grenada has been a party to the Convention Since: 11 August 1994 (by Ratification) Signature Date: 3 December 1992 and a party to Cartagena Protocol Since: 5 May 2004 (by Ratification) Signature Date: 24 May 2000.

The screenshot shows the homepage of the '5000 Observations pour la Forêt' website. At the top, there's a banner with the text '5000 Observations pour la Forêt' and 'Un appel au public pour mieux comprendre nos forêts'. Below the banner is a navigation bar with links: Accueil, Déposer des données!, Présentation, Participer, Espèces et milieu, Jeu concours, Plus d'infos, and Recherche... A search icon is also present in the navigation bar.

The main content area features a large map of the Livradois-Forez Regional Natural Park in France. The map shows a network of roads and towns like Gannat, Le Mayet-de-Montagne, Roanne, Lyon, and Vienne. Numerous green tree icons are scattered across the map, indicating observation points. On the left side of the map, there's a sidebar with a heading 'Afficher les observations' and three selection filters:

- Mollusques**: Bouton, Hélice des bois, Soucoupe commune, Veloutée plane, Limace léopard, Grande Limace
- Papillons**: Aurore, Groupe des Mars changeant, Lucine, Morio, Robert-le-diable, Tabac d'Espagne
- Vertébrés**: Crapaud commun, Salamandre tachetée, Sonneur à ventre jaune, Lézard vert

At the bottom of the map, there's a scale bar ranging from 0 to 20 km and 0 to 10 mi, along with a Google logo and a 'Report a map error' link.

The Virtual Library for Ecosystem Assessments in Europe

This Virtual Library is intended for uploading specific information on relevant resources for ecosystem assessment in Europe (including grey literature, tools, events, websites and maps, in any language).

The library will provide a search tool for

- Resources (document, websites, maps, events) relevant for ecosystem assessment in Europe
- Experts that produced these resources
- Organisations that produced these resources

The contributing interface is currently tested by a restricted number of invited experts. For any inquiries, please contact [Valérie Laporte](#) (Valerie.Laporte@eea.europa.eu) in the EEA.

Mobile

The reign of mobiles is close. Mobile devices will soon outsell PCs. Let's be prepared for the future and build mobile applications that complement the web desktop presence of your organization.
